

Resort Report

Klines Resort - October 2017 Update

Storage Area Fees: Your annual storage lot fees are posted on the October statement. Inform the office ASAP if you were billed incorrectly.

Protect our shores: Please raise your docks and other items off the ground so you do not kill the grass.

Place docks well away from shore and above the high water line. Paddleboats, canoes, small boats, etc. should be placed in storage (they may fit under your pontoon).

Winter billing surveys are due October 16. Be sure to give us any winter address changes and your email address! Seasonal rent is due Nov. 1.

Winterizing requests are due 2 weeks prior to departure. Please sign & return the written form.

Shrink Wrap for your Pontoon or Boat! Call Rex Rork for pricing or to schedule. 269-217-5040

Stay updated all winter! If you would like to get emails with newsletters and other updates, send a note to Don Squires at alliswc@comcast.net

Watch for Drinking Water Notices

As a Class 1 water supply, Klines Resort complies with DEQ regulations for testing, sampling, and reporting drinking water quality. We follow EPA and DEQ requirements to inform you of any incident that has the potential - however small - to affect our drinking water safety.

Of course, water problems seldom happen at opportune times. On Sept 19, a broken pipe forced us to shut off the water to 90 sites. We had it repaired in record time, put notices in boxes, and rushed the first sample to town as the lab was closing. Unfortunately, a number of folks did not find the notice until the next day and continued to use their water as usual. They were understandably concerned.

Unlike larger municipalities, we do not put notices in the newspaper or on radio. Instead we use your paper tubes. We typically use pink paper for important notices. **Please watch for these notices, and alert any neighbors who may be unaware of them.** By using this method, you are much more likely to receive information in a timely manner.

At no time during this incident was there a bad water sample. A boil advisory is required by the DEQ as an added precaution **every time we lose water pressure.** Should test results indicate an actual hazard exists, we will attempt to inform you in person as well. Our apologies for any undo concern caused by this incident.

Fall Leaf Pickup

Pickup crew begins late October. Until then, if you wish to pick up leaves **please bag them OR take**

them to compost area. Bag pickup is Mon & Thurs. Place bags in your yard for pickup. **Do not block sidewalks or streets.** **Do not pile leaves and** leave them to get wet and frozen. Thanks!

Prepare your yard for leaf pickup: Hoses, lawn ornaments, fire pits, and other obstacles can get lost in the leaves and create a hazard for our crew and equipment. **Please put everything away or flag** so it can be identified if covered with leaves. Thanks!

Wayne Says....

Golf Carts should be fully charged for winter storage. Then disconnect cart from charger.

It could cause a fire!

OFFICE HOURS

WINTER HOURS BEGIN OCT. 1

Mon - Wed - Friday 9 am - 2 pm
(closed Tu, Th, Sat, Sun, & holidays)
Closed Nov. 23-24, Dec 25 - Jan 2.
