Phil's Corner

Last week's tornado in Gaylord is a good reminder of the importance of staying alert and being able to respond quickly to storm warnings. Yes, the Resort siren is set off by county emergency management staff, but you should not rely solely on it. You might not hear it, or it might sound too late. The clubhouse will be unlocked if storm warnings are announced, and you are welcome to hang out there.

A big concern is the safety of everyone rushing to the clubhouse when the siren sounds. Let's avoid trips & falls! Some things to keep in mind include:

- It may be dark or raining. Visibility may be poor. Watch for pedestrians. Follow directions from our volunteers who will be wearing safety vests.
- Floors and decks may become wet and slippery. Use handrails. If you are able, assist others.
- Do not block entrances and stairs. If you choose not to go to the basement, move out of the way.
- Response time is critical. Be prepared. Have a plan. If in doubt, seek shelter.
- For all the above reasons, and for the health and safety of others, pets are not allowed in clubhouse.

When we moved home in '95, there was a lovely lady named Phyllis who cared for her wheelchair bound husband, Ray. If the weather was threatening, she was always first, loading Ray and his chair in her golf cart. When I came to unlock, I often found the two of them watching the sky from the old patio under the dining room. She was a peach!

Let's be like Phyllis!

God Bless,

Phil
